PROSPECT AND OUTLOOK

The Bank is approaching 2023 with cautious optimism in line with expectations of continued economic growth within our key operating countries and segments. The Bank is cognisant of uncertainties brought about by global headwinds in terms of elevated inflation, further monetary policy tightening in major economies, sustained political tensions, still-prevalent Covid-19 threats and a possible global recession. The execution of Forward23+ strategies will continue to guide the Bank's direction with focus on sustainable business, strong credit risk management, cost controls and strengthening the deposit/CASA proposition in view of intensified deposit competition. The Bank expects continue positive financial performance going into 2023 with prudent financing growth, controlled financing loss provisions and stringent cost management, as it continues to leverage on the dual banking model.
